**Skin and Coat  
Growth Support  
Immunity**

### NATURE HAS IT RIGHT!

EveryDayBalance blends a unique combination of flax, probiotics, vitamins, and minerals to provide gastrointestinal support and detoxification. Added Availa® Pet Zinpro® Performance Minerals promote healthy skin and coat, and joint and skeleton support. Organic trace minerals also aide in a healthy immune response. Enviro PET's EveryDayBalance combines the best of nature and science to keep your pet happy and healthy.

### HEALTH BENEFITS

#### Probiotics

Common stressors can include medications, infections, environmental toxins and unhealthy foods. Probiotic bacteria help to provide your pet with a defense mechanism against these harmful pathogens. Supplementing your pet with our proprietary blend of yeast cultures helps promote healthy skin and coat, digestion and immunity.

#### Mycotoxin Binder

Since pet foods contain so many different ingredients no matter the process mycotoxins are unavoidable. Such mycotoxins are potentially harmful to your pet. EveryDayBalance contains mycotoxin binders to remove these potentially harmful toxins from your pet's digestive tract helping to stabilize the gastrointestinal environment.

#### Organic Zinpro® Trace Minerals

Organic trace minerals offer a multitude of benefits to your pet's health. From promoting healthy skin and coat to joint and skeletal support. Organic trace minerals also aide in a healthy immune response when your pet is given vaccinations. **MINED IN AMERICA**
