# OMEGABALANCE

## Cold-pressed Camelina Oil

*Supports your horse through the rigors incurred with exercise and training*

# 3

Cold-pressed Camelina Oil  
Omega 3, 6, And 9 Fatty Acids  
Supports Insulin Sensitivities

### PROVIDE YOUR HORSE THE BEST THAT NATURE OFFERS!

EnviroEquine OmegaBalance is a rich source of plant-based Omega-3 fatty acids from Camelina oil, which help support a healthy inflammatory response, insulin sensitivity and weight management. OmegaBalance provides support for performance horses faced with exercise-induced inflammation, allergies and arthritis, as well as horses with metabolic conditions and poor insulin regulation

EnviroEquine OmegaBalance Camelina Oil is fresh pressed to safeguard a full range of beneficial ingredients. These ingredients include a rich source of naturally occurring mixed tocopherols, a family of Vitamin E compounds. Not only may the broad spectrum of natural Vitamin E compounds help reduce post-exercise muscle soreness, they also give OmegaBalance Camelina Oil an unusually long shelf life. In addition to supporting your horse through the rigors incurred with exercise and training, OmegaBalance Camelina Oil also promotes excellent skin health and coat quality so your horse can look his best while working hard!

Maximize the nutritional benefits of OmegaBalance by pairing it up with any one of our mineral supplements.

- + **Gastrointestinal Support**
- + **Inflammatory Support**
- + **Seasonal Allergy Support**
- + **Natural High Levels of Vitamin E**

### FEEDING DIRECTIONS:

💧💧 2 fl oz

For maintenance, use 2 oz per day.

💧💧💧💧 4 fl oz or 💧💧💧💧💧💧 8 fl oz

For performance horses and to support inflammatory response, use 4 to 8 oz per day.

### FULLY TRACEABLE

Our cold-pressed Camelina oil is 100% grown and pressed in North America. To ensure optimal quality, we work directly with our farmers and can trace each batch directly back to the grower.
