

Neutragast

Comprehensive gut support for horses prone to gastric disturbances.

DESCRIPTION

It is well documented that high starch cereals, if fed in large amounts, can lead to digestive problems. Research suggests that the fitter the horse gets, the smaller the capacity of the hind gut. This can lead to a reduction of microbiota available to produce vitamins. Plusvital Neutragast combines active and natural ingredients to balance gastrointestinal function.

The horse has a unique and sensitive digestive system and changes in the gut can lead to serious problems, such as gastric ulcers, acidosis and laminitis. By combining B Vitamins, Calcified Seaweed, Boswellia Extract and Active Yeast, Neutragast is designed to soothe and help prevent digestive disturbances.

KEY FEATURES

- Supports digestive health
- Source of B vitamins to help with food metabolism
- Boswellia Extract to calm & soothe the digestive tract
- Saccharomyces Cerevisiae to improve fibre digestion and microbial balance
- Calcified Seaweed to act as a buffer against excess acid in the stomach

KEY INGREDIENTS

Per 75 g / 2.6 oz dose: Vitamin B6 26 mg, Vitamin B12 35 µg, Zinc 50 mg, L-Threonine 1,000 mg, Saccharomyces Cerevisiae 2,000 mg, Boswellia Extract 250 mg.

Available Sizes & Feeding Days:

80 days

20 days

Directions for Use:

- Add 75 g / 2.6 oz daily to the feed for as long as desired.
- A 25 g / 0.9 oz measure is provided.
